Groomer's Daily Shopping Planner**

Instructions:

If you are already in business you can use this Planner to organize daily, weekly or monthly shopping to restock your business, including retail inventory if applicable. You can also use this form to plan shopping sprees at upcoming trade shows. If you are starting or expanding a commercial, mobile or home-based grooming business we have separate "lists" specifically designed for that purpose at no charge. See www.petgroomershop.com to download this and other planners free.

Data Entry

It's easy to use the Excel® version of our Planners to calculate your total spending. The "cells" of the spreadsheet are color-coded. You only enter text or numbers in the blue-shaded cells, *no exceptions*. You do not have to fill-in all of the cells. Columns are labeled describing what data to enter and examples of completed fields are shown below. Because you are using Excel® it will calculate your spending totals based on your data entry. There is no need to enter any formulas, just data. You may enter dollars AND cents, but all entries will be rounded to the nearest dollar.

Every time you enter data into the blue-shaded cells the Summary page is updated. Subtotals for each category of expenditures are transposed to the Summary page and a special graph illustration is continuously updated whenever you enter data. We suggest you save your work often. Make back-up copies. To use the Excel version you will need a computer with the Microsoft® Excel program, or compatible such as the free Open Office (www.openoffice.org). This version has been tested to work with Mac systems running MS Excel®, but compatibility is not guaranteed.

Business Plan Writing Disclaimer

Do not confuse this planning tool with similar ones included with Pet Grooming Business Plan Helper & Sampler, one title in the Grooming Business in a Box® series. There are very little similarities between this complimentary list and the many business plan financial files provided in Pet Grooming Business Plan Helper & Sampler, but the latter were carefully formatted to meet the expectations of bankers and investors reviewing formal business plans. This list tool doesn't replace business plan financials in any manner. If you're creating a business plan we strongly encourage you to use a *complete set* of financials provided by Pet Grooming Business Plan Helper & Sampler. They include mandatory factors expected in business plan financials such as startup assets and expenses, income projection, cash flow analysis and balance sheet expressions. Use this tool to get a rough idea of your required spending to start, remodel or expand your business. The spending information you collect when completing this shopping lists may be transposed to your formal business plan including the many Excel files provided in Pet Grooming Business Plan Helper & Sampler.
